 (visit our website)

Telehealth / Video Consults

All of our therapeutic supports can also be
 delivered via your computer through our easy,
 video consultation system - Australia wide.

Physiotherapy

We have extensive clinical experience in the management of neurological conditions & disabilities (eg: Cerebral Palsy, ASD, Down Syndrome, Acquired Brain Injuries, Strokes, Multiple sclerosis, Alzheimer's & more).

Occupational Therapy

We can work with you to maximise your functional capacity & independence, including:

- fine motor skills
- cognitive skills, problem solving & memory / attention span, hand-eye coordination
- social skills / emotional regulation
- life skills, ie: bathing, dressing, hygiene, cooking & self-feeding.
- sensory processing & visual perception
- recommend equipment & assistive technology.

We provide rapid, quality Functional Capacity Assessments (FCAs), Complex Home Modifications, Sensory Profiles, quotes, etc.

Psychology & Counselling

We have kind and caring Psychologists & Counsellors to assist patients of any age with mental health concerns to support capacity building, resilience & independence.

Speech Pathology / Therapy

Our Speech Pathologists assist people of all ages with communication problems and a wide range of speech disorders.

Exercise Physiology

Our accredited Clinical Exercise Physiologists have extensive experience managing chronic disease & disability to support improved physical function, fitness & quality of life. Hydrotherapy available.

Play Therapy

Offered under [Family Agility](#), many of our therapists can work with your child through play to achieve positive therapeutic outcomes.

Therapy Assistants / Capability Coaches

Make your therapy funding go further by using a TA, operating under the guidance of our expert Therapists.

We are also registered to provide **Early Childhood Early Intervention (ECEI) Supports (for children under 9 years old).**
